

ROBO WAR

INCEPTUM 2k14

Introduction:

The Blood....the sweat.... the destruction..... the glory....

All at the Inter-Collegiate Combat Robotics Championship, promising a wilder, fiercer

competition this year. You could be forgiven for thinking that the machines you'll see are from

outer space or the depths of hell, but they're the wild, weird and wacky creations of skillful

roboteers from all around the country. Equipped with the fiercest weaponry and toughest armor,

gears will grind and sparks will fly, much more is at stake as the robots battle it out in a bid to be

the best. Robowars is manufactured mayhem of the highest order.
